In addition to top-notch training we also provide you best Industry Course Material Specially designed by DIS Master Consultants. DIS features top Industry Certifications in Field of Cyber Security and Cyber Intelligence.

COURSE CONTENT

- Introduction to Basics of Ethical Hacking
- Foot printing: Active (Tool Based Practical)
- Foot printing: Passive (Passive Approach)
- In-depth Network Scanning:
- Enumeration: User Identification
- System Hacking: Password Cracking and Bypassing
- Viruses and Worms
- Trojans and Backdoor
- Bots and Botnets
- Sniffers: MITM with Kali
- Sniffers: MITM with Windows
- Social Engineering Techniques: Theoretical Approach
- Social Engineering Toolkit: Practical Based Approach
- Denial of Service: DOS and DDOS Attacks
- Web Session Hijacking
- SQL Injection: Manual Testing
- SQL Injection: Automated Tool Based Testing
- Basics of Web App Security
- Hacking Web servers: Server Rooting
- Hacking Wireless Networks: Manual CLI Based
- Hacking Wireless Networks: Automated Tool Based
- Evading IDS, Firewalls
- Honey pots
- Buffer Overflow
- Cryptography
- Penetration Testing: Basics
- Mobile Hacking and Cloud Computing.

WHO CAN ATTEND

- Students/Individuals
- College going Students
- Industry Expert
- Network Specialist
- Army/Navy Officials
- Intelligence Agencies
- College Faculties
- Government and Corporate IT Managers
- CEO/CTO and Higher Management Personals.
- Security Tester who need to find network based vulnerabilities and remediate them.
- Penetration Testers
- Ethical Hackers
- RED OR BLUE team Members
- Computer geeks who wants deep knowledge about ethical hacking

WHAT WILL YOU GET

- ALL Virtual Machines and Virtual Environment for Students who attend trainings.
- DVD with tools , Videos , Practice Tests , Virtual Labs.
- Audio and Video Tutorials which will help in doing practical sessions at your study desk also.
- Written Test Voucher Code
- Online Test Voucher Code

EXAM DETAILS

- Training Mode Offensive
- Course Duration- 60-80 Hours(Instructor Led Training) 2 Hours /8 Hours /4 Hours Per Day
- Exam Code - DIS10.1
- Exam Duration- 4 Hours (Written)
- Exam Duration- 8 Hours (Lab Challenge)
- Exam Fee - 600 USD (Written + Lab Challenge)
- Credits- 25 Credits (Towards DIS10:Diploma in Information Security)

Summer Internship Training 2018

- Hacking in Networks.
- Metasploiting Target Network and its various Payloads.
- NMAP-OS Detection /Service Detection/ Version Detection.
- NMAP Scripting Engine(NSE SCRIPTS).
- Network Sweeping-Live IP Detection.
- Windows OS Exploiting.
- Password cracking with Cain, John the Ripper and Rainbow Tables.
- Automated password guessing.
- Cracking wireless security protocols, including WPA.
- Exploiting
- DVWA Testing web Application.
- In-depth XSS attacks and command injection Vulnerabilities.
- Shell exploitation.

What is Computer hacking?

Computer hacking is a techniques used by computer geeks and computer experts by which they give a new functionality to an existing system functions. Computer hacking can be used ethically and maliciously.

What I will learn in this Ethical hacking certification DIS10.1 ?

In this certification you will learn basics of ethical hacking and cyber security. This is an offensive training. You will learn sniffing, virus, trojan, computer hacking, windows hacking, social network hacking, website hacking and techniques used by various top industry professionals around the world.
