CASP PLUS

Course Description

CompTIA Advanced Security Practitioner is a vendor-neutral certification that validates IT professionals with advanced-level security skills and knowledge. This certification course covers the technical knowledge and skills required to conceptualize, design, and engineer secure solutions across complex enterprise environments. It involves applying critical thinking and judgment across a broad spectrum of security disciplines to propose and implement solutions that map to enterprise drivers while managing risk. There is no required prerequisite for this course however, the CASP certification is intended to follow CompTIA Security+ or equivalent experience and has a technical, hands-on focus at the enterprise level. This CASP training course follows the CompTIA authorized objectives, ensuring you receive the training and knowledge needed to succeed. The CompTIA Advanced Security Practitioner certification is an international, vendor-neutral exam that proves competency in enterprise security; risk management; research and analysis; and integration of computing, communications, and business disciplines.

CASP Plus Course Content
